IDENTIFIERS *New York

ABSTRACT

Tables in this document present: (1) the 1977-78 racial/ethnic distribution of public school students for New York State's "Big Five" (Buffalo, New York, Rochester, Syracuse and Yonkers) school districts, and for the rest of the State; (2) the 1977-78 distribution of black and Hispanic students by location in the State; (3) the percent distribution of public school students by racial/ethnic origin for the years 1973-74 through 1977-78; (4) the number of schools and the number and percent of minority students (in general), and black and Hispanic students (individually) in schools of differing racial composition; and (6) the distribution of public school professional staff by racial/ethnic origin. Also presented are the distribution by racial/ethnic origin of public school students and professional staff for each school district in the State. (Author/GC)

## INTRODUCTION

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and is now a part of the Department's Basic Educational Data System.

Table 1 presents the 1977-78 racial/ethnic distribution of public school students for the State's "Big Five"[a/] school districts (individually and combined), for the rest of the State and for the State as a whole. Examination of table 1 shows, in part, that (1) excluding the "Big Five" cities, 6.9 percent of the students enrolled in New York State's public elementary and secondary schools are classified in the two major minority groupings--black and Hispanic; (2) within New York City, 67.5 percent of the students are of a major minority group, and 29.6 percent are classified as white; (3) in four of the State's five largest cities, over 30 percent of the students are classified as black.

Table 2 details the 1977-78 distribution of black and Hispanic students by location in the State. It can be seen that of all public school black students in the State, 70.8 percent attend schools in New York City, while an additional 9.9 percent attend schools in the other four major cities. Some 87.9 percent of the State's Hispanic students attend schools in New York City.

Table 3 shows a percent distribution of public school students, by racial/ethnic origin, for the years 1973-74 through 1977-78. In the large cities of the State, the major minority group population of the public schools rose from 60.5 percent in 1973-74 to 64.6 percent in 1977-78. The increase was most pronounced in Rochester and Yonkers where black and Hispanic representation in the public schools rose 7.7 percentage points over the five-year period.

Table 4 shows the number of schools and the number and percent of minority students (black and Hispanic) in schools of differing racial composition; i.e., the percent of minority students in the school. Examination of table 4 shows, in part, that (1) there are 450 schools in New York with no black or Hispanic students; (2) there are 57 schools in which all students are of a major minority group and that the enrollment in these schools accounts for 3.8 percent of the State's total black and Hispanic enrollment; (3) about three-quarters (75.8 percent) of the black and Hispanic students in New York State's public schools attend a school that can be classified as a minority school; i.e., 50 percent or more of the students are black or Hispanic.

---

[a/] Buffalo, New York, Rochester, Syracuse, Yonkers

Table 5 shows the number of schools and the number and percent of black students in schools of differing racial composition. Examination of table 5 shows, in part, that (1) there are 705 schools in New York with no black students; (2) there are 7 schools which are all black and that the enrollment in these schools accounts for 0.4 percent of the State's total black enrollment; (3) over half (52.3 percent) of the black students in New York State's public schools attend a school that is predominately black; i.e., 50 percent or more of the students are black.

Table 6 presents data similar to that of table 5 for Hispanic students. It may be seen that while there are no "all Hispanic" schools in the State, 43.5 percent of the Hispanic students attend schools with enrollments that are predominately (50 percent or more) of the same ethnic group.

Tables 7 and 8 show the distribution of public school professional staff by racial/ethnic origin, with current year data presented in table 7 and trend data for the years 1973-74 through 1977-78 appearing in table 8. Table 8 shows that the percent of minority group staff rose from 12.3 to 15.6 percent in the large cities of the State between 1973-74 and 1977-78. For the total State, minority groups increased from 5.9 percent of public school staff in 1973-74 to 7.2 percent in 1977-78.

Appendix A distributes public school students by racial/ethnic origin for each school district in the State. Appendix B distributes public school professional staff by racial/ethnic origin for each school district in the State.

APPENDIX B

PERCENT DISTRIBUTION OF PUBLIC SCHOOL STAFF
BY RACIAL/ETHNIC ORIGIN

1977-78

NOTE: "Public School Staff" includes all professional staff assigned full-time to one school, central office professional staff and those assigned to more than one school.

An asterisk (*) in the table indicates less than 0.1 percent.
